Perimeter E-Security's E-Mail Archiving Services Recognized by Leading Industry Analyst Firm

Milford, CT, June 2, 2011 – Perimeter E-Security, the trusted market leader of information security and secure messaging services that deliver enterprise-class protection and compliance to companies of all sizes, today announced that Gartner, Inc. recognized the company in the latest "Outsourcing E-Mail Archiving: 2Q11 Vendor Update" report.

"Companies today are under tremendous pressure to be compliant and therefore need to update their messaging systems to support and follow the constantly changing regulations," said Tim Harvey, CEO of Perimeter E-Security. "We are honored to be profiled in the outsourced email archiving sector where businesses can objectively view the strengths of our services, which include our ability to help manage e-mails in a secure, compliant manner without affecting IT budgets."

Perimeter E-Security offers 15 services that are divided into three categories: SaaS Managed Security, SaaS Vulnerability Management and SaaS Security Messaging, which includes Messaging Compliance Archiving and Messaging Continuity and Archiving services.

Perimeter E-Security is the only enterprise-class security services provider offering both comprehensive threat management and secure messaging, underpinned by strong compliance expertise. The company offers all customers the same level of security as a Fortune 500 firm, by providing solutions that allow them to easily assess, monitor and reduce their messaging, security and compliance risks. With one million secure messaging users, USA.NET, a Perimeter E-Security company, filters 50 million emails per day and handles 240 million security events every day with 200 terabytes of managed archives.

About Perimeter
