Perimeter E-Security alliance offers preferred security, messaging solutions to credit unions

CUNA Strategic Services Renews Relationship, Citing Perimeter's Compliance Expertise and Comprehensive Security and Messaging Services

MILFORD, Conn. (4/18/11)--Perimeter E-Security, the trusted market leader of information security and secure messaging services that deliver enterprise-class protection and compliance to companies of all sizes, today announced that CUNA Strategic Services (CSS) has renewed its strategic alliance relationship with Perimeter for security and messaging solutions.

"The credit union conundrum is clear. They have to address the same regulatory and security challenges as major financial institutions with significantly limited internal resources," said Tim Harvey, CEO of Perimeter E-Security. "We're grateful for CSS' continued support of Perimeter. Since we comply with the same rigorous industry oversight as credit unions, we're best served to deliver security and messaging solutions that meet the complex compliance needs and threats facing smaller financial institutions."

Perimeter's unique centralized architecture offers best-in-class pre-integrated technology with complete redundancy and continuous upgrades, complemented with a 24/7 engineering staff of trained subject-matter experts. Perimeter is a Certified Cisco MSSP Partner and exhibits significant industry oversight with an annual SAS70 Type II, FFIEC oversight as well as CyberTrust - TruSecure Certified Service Provider designation.

"Perimeter delivers the most comprehensive compliance, security and messaging services, providing state-of-the-art, yet affordable, solutions for credit unions of all sizes," said Wes Millar, Senior Vice President of CSS. "Since 2006, we have recognized Perimeter as the clear choice for credit unions with its proven track record in the financial services industry."

As the only enterprise-class security services provider offering both comprehensive threat management and secure messaging, underpinned by strong compliance expertise, Perimeter protects over a half-trillion dollars in assets for more than 6,000 customers, including 500 credit unions. Perimeter offers all customers the same level of security as a Fortune 500 firm, by providing solutions that allow them to easily assess, monitor and reduce their messaging, security and compliance risks. With 80 petabytes of managed archives, the company also filters 50 million emails and handles 240 million security events every day.

About CUNA Strategic Services, Inc.

CUNA Strategic Services, Inc., owned jointly by Credit Union National Association (CUNA) and the state leagues, saved credit unions \$25 million in 2010 through its alliance programs. It provides credit unions with access to quality products, services, and technologies delivered with a competitive advantage made possible through volume pricing and strategic program development.
